## OFFICE SYSTEM / TASK CHAIR

# ITIS2

— — — — — The restyled ITIS2 chairs feature stylish lines for a modern look. The backrest with urethane-mesh finish provides optimal support, and various adjustable settings quickly and easily make the chair conform to any body type. Ergonomics and aesthetics are both prominent aspects of this great chair.

1. Mesh, which is made of Mole and Urethane, has very soft feel as well as being elastic and durable.
2. The synchronized tilting system helps users to maintain a comfortable working posture. A locking position can be maintained at various positions from upright to declined.
3. Ergonomically designed, while supporting one's head comfortably, the headrest is height and angle adjustable according to the user's body shape and posture.
4. The ergonomic lumbar support can be easily adjusted according to the user's body shape in order to support the user's lumbar area posture in seating.
5. 6. The position of the armrests can be easily controlled by pushing the button.

OFFICE SYSTEM / TASK CHAIR

# ZESTI

— — — — — The simple and modern solution for office seating.  
The ZESTI chairs feel just as comfortable as they look.

1. The elegant shape of the backrest is a product of our experience and know-how. The armrests conceal the connecting bolts and operate together with the seat. It is easy to feel the concentration of the technology in this product, along with a feeling of refined simplicity.
2. The conference chair with the wave shaped frame along with the comfortable urethane armpad creates a sensuous modernism to users. The chrome finish connecting the frame and backrest adds to the elegance and beauty to this chair.
3. The synchronized tilting mechanism helps to reduce pressure on the lumbar, and the chair also boasts a locking system to secure users in any position they choose.
