

# University Lecture Room

Desk  
Table

---

Recently, universities are making an effort to create a better learning environment by installing new technology and erecting new architecture.

But students spend most of their time in the lecture room, making it the most important space.

A lecture room should be comfortable, to help students to focus as well as engage in communication. Fursys Education products for university lecture rooms help create a better education.

UCR9 series

UCR9 series with its practical urethane edge around the desk surface and simple bottom structure creates the perfect learning environment.

Details

**Urethane desk edge / Penholder**  
All four sides have rounded, urethane edges for enhanced durability. Built-in pen holder on the desk surface adds convenience.

**Mesh shelf**  
Mesh shelf below the desk surface provides storage for personal belongings.

**Modesty panel**  
Modesty panel provides privacy and a stylish appeal.
